

Improve your bottom line with MW Security

EASETUBE™

The new MW Security EASETUBE™ is taking protection of make-up products to a new safer place. EASETUBE™ is the result of the latest technical innovation - focusing on the rapidly growing Health & Beauty sector. In the EASETUBE™ solution you have a one piece solution for a multiple of purposes, with a maximum of security and strong visual exposure, equipped with the MW Security patented locking system.

About the products

The Safers are made of high quality PC that is resistant, durable and clear. Our products are environmental friendly and fully recyclable, suitable for all retail sectors, excellent in visibility, reusable boxes and adaptable for all EAS systems.
